**PRELIMINARY REPORT ON CHILD PORNOGRAPHY BEING DISTRIBUTED VIA FACEBOOK CHAT-GROUPS**

**by**

**Army of Angels (Collective)**

Internationally, 2020

# WARNING: GRAPHIC CONTENT

# THIS DOCUMENT CONTAINS IMAGES THAT ARE EXPLICIT

## Method

Making use of a decoy profile named “Dylan”, Army of Angels was able to infiltrate chat-rooms used by predators to exchange child pornography. Working as a group, we have observed, collected and analyzed information regarding the members who most frequently distribute such items.

“Dylan” was created using pictures of a real little boy. A new profile was created and a very small group of people from the group of interest was added by the decoy. After a very short time, “Dylan” already had over 400 friends and messages from adult men, wanting to speak to the child and/or sending indecent photographs of their genitalia. Among these addings, “Dylan” was also added to two groups where child pornography is freely and easily distributed by the members, the most prominent posters to be reported in detail in the images that follow.

This report aims to call the attention of entities, people and/or organizations that can help put an end to the ease with which these people solicit, distribute and download (and even sell) indecent material that involves minors. This is the sad reality of the technological world; platforms such as Facebook are allowing child pornography to be exchanged and, not only making it effortless for predators to exist in this environment but, also, strengthening the idea that pedophilia is generating profit for these platforms. Not wanting to directly accuse, in any way, Army of Angels asks every organization, entity, person or collective that has the power to address this serious epidemic to, please, join your voices in the fight against the untroubled way these items are shared online.

We demand safety for our children and a technology that truly helps to dissipate this extreme situation. These children have no voice – can we give them one?

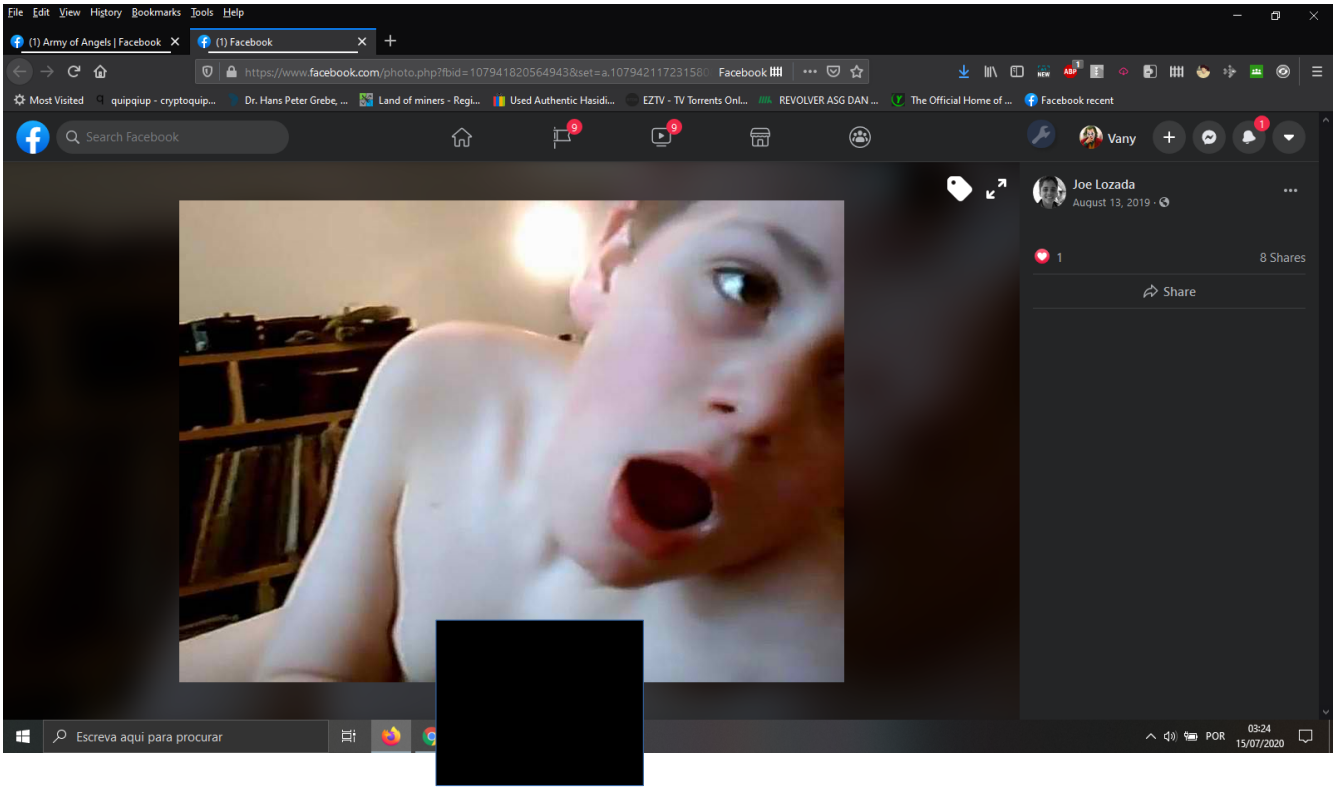
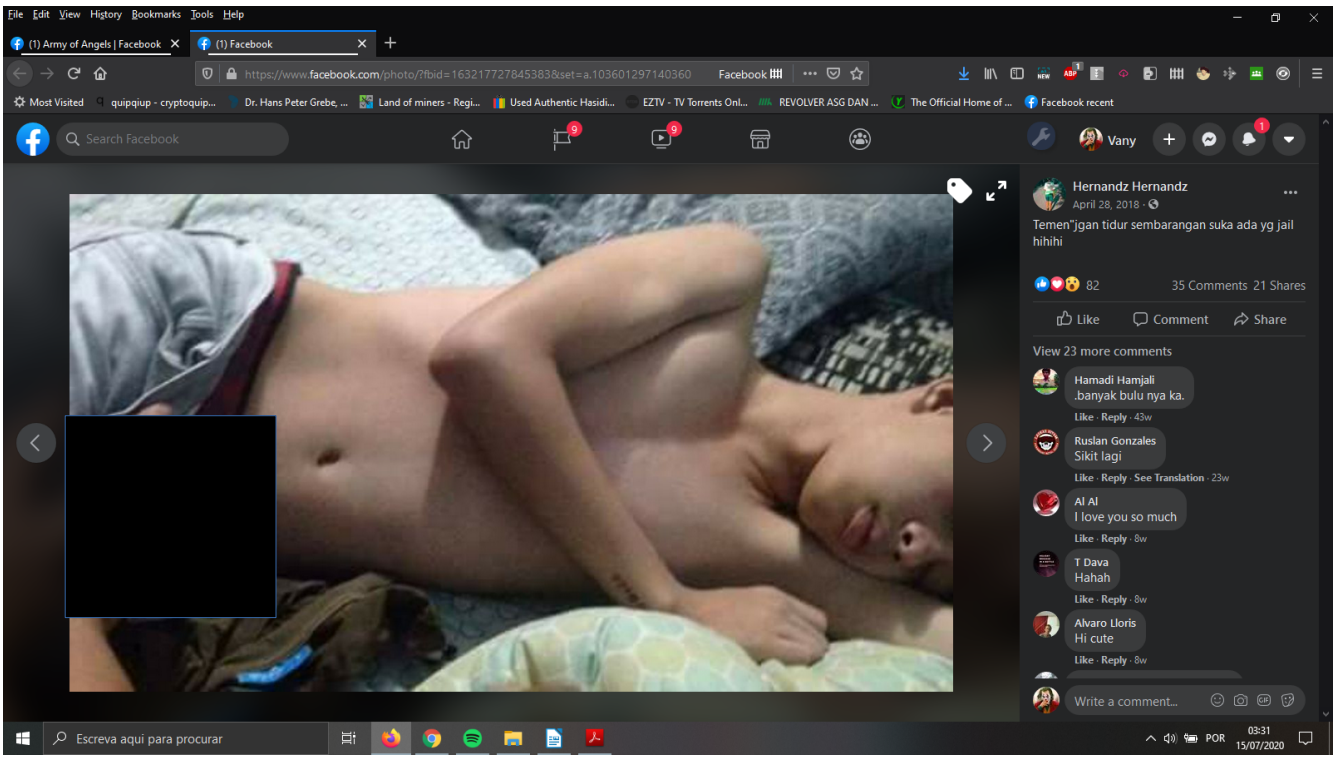
**E) Facebook refusals to take down explicit photos involving minors.**

1. https://www.facebook.com/joe.lozada.5011



This photograph has been circulating on Facebook and it is, clearly, explicit enough to understand what it is. Facebook does not prioritize our MULTIPLE complaints.

2. https://www.facebook.com/zavier.zavier.7146



The same happens with the picture above, Facebook refuses to delete it, despite of our may reports and complaints.

## Conclusion

To conclude this report, Army of Angels would like to express how Facebook has been ignoring this issue, making it difficult to report directly and refusing to take down blatantly sexual content involving minors, while giving impact to much less serious posts. It is shameful that people without mental training, like our courageous group, have to dig themselves to uncover the most horrific things imaginable. The emotional toll it takes on us is the price we pay to try to, somehow, help put an end to the most evil actions the world knows of – the sexual exploitation of children.

Please help us make this cause public, as it is of the interest of the people to know what is going on on the platforms they daily use and the danger our children are in while, innocently, adding profiles that pretend to be children, so they can lure them into the darkest darkness.

Thank you for you attention,

Sincerely,

Army of Angels
